We did not report a price if only one was received. No average is reported when there are only two prices reported for the same crop and units. Some units, such as "bunch" are variable, making the price range larger than it would be for a more standardized unit. Organic prices are for goods defined as organic by the producer and are not limited to certified organic produce.

This week we received 13 reports. If you have questions, contact Reenie De Geus at 802/828-3832 or reenie.degeus@state.vt.us. This summary is available on our website at <http://www.vermontagriculture.com>
